

# Custodian Model

## Custodian Model

- Apperta is a clinically led & controlled not for profit, non-dividend paying community interest company Reg No 09483987
- The preferred procurement route for customers to obtain professional services from a partner supplier is Digital Marketplace (G-Cloud)
- The financial and contractual arrangement is directly between the customer and the partner supplier, who in turn fund The Apperta Foundation
- Software downloaded from the Apperta GitHub repository is provided on an OSI recognised license without any warranty or support or liabilities.
- Warranty/Safety cases/CE marking and medical device registration (if applicable) are provided when a partner supplier is contracted to implement & support the software.
- Only customers who use a partner supplier for implementation and support or subscribe for custodianship services will be admitted to the relevant product Design Authority.
